DIY Golf Simulator Enclosure Kit

www.carlofet.com
1650 Putman Pkwy, Milton, WI 53563
(608) 352-0002

With an easy do-it-yourself design, Carl's DIY Golf Enclosure Kit is designed to be flexible and customizable, giving any golfer the safe space to practice.

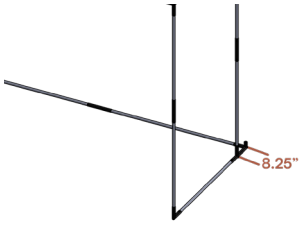

Available in six standard frame layouts or fully customizable sizes to perfectly fit unique room heights and widths.

- **Light-absorbing BlackStop™ fabric** keeps the bay dark.
- **Floor-to-turf borderless screen** creates a seamless view from the floor to the screen.
- **Fast 1 hour assembly.**
- **Heavy-duty materials** designed to withstand repeated impacts.

Listing Size[1] (W x D)	Aspect Ratio	Viewable Screen Dimensions[2] (In Inches)			Actual Outer Dimensions[2] (In Inches)			
		Height	Width	Diag.	Height	Width	Depth	Footprint Depth
7.7 x 10	4:3	83.1	110.8	138.5	95.8	124.8	59.125	67.375
7.7 x 13	16:9	84.0	149.3	171.3	95.8	163.3	59.125	67.375
8 x 8	1:1	86.0	86.0	121.6	100	100	59.125	67.375
8 x 10.5	4:3	87.2	116.3	145.4	100	130.3	59.125	67.375
8.5 x 11.5	4:3	94.7	126.3	157.9	107.5	140.3	59.125	67.375
9 x 12	4:3	99.2	132.3	165.4	112	146.3	59.125	67.375
Custom	**We custom size enclosures every day.** Customize yours at: https://shop.carlofet.com/build-your-own-golf-simulator							

Note: Depth is screen-to-front frame depth. Footprint Depth includes the backset rear fitting, adding 8.25".

[1]The main listing size is a simplified name. Verify the actual outer dimensions to ensure a correct fit.
[2]We do our best to be exact, but please allow for a small manufacturing variance.
